EDUCATION

2015, *5 week youth program*

- Gage Academy of Art, Seattle

I am a self taught artist, meaning I did not attend a high school, college or graduate school for the arts. However, I did attend a youth program at Gage Academy. It was a 5 week program (titled "Portfolio Intensive") that introduced me to classical methods of drawing and oil painting. Most of my knowledge is from experience but Gage was a life changing experience for me.
